SUMMARY

Full Stack Engineer with 5+ years shipping production web and mobile products — from React UIs to Node.js APIs to Python microservices — including enterprise platforms for global clients like ZEISS. Recently focused on AI/LLM systems: content automation, B2B lead intelligence, and outreach pipelines built with Claude and Groq.

SKILLS

Frontend: React, React Native, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, MUI

Backend / APIs: Node.js, Express.js, FastAPI, GraphQL, MongoDB, PostgreSQL, REST APIs

AI / LLM: Claude API (Anthropic), Groq SDK, LLaMA 3.3, Prompt Engineering

Cloud / DevOps: GCP, Firebase, Azure, Docker, Vercel, Netlify

Platforms & Tools: AEM, Strapi, Git, Figma, React Query, Zustand, TanStack Table

EXPERIENCE

Full Stack Developer, Freelance / Independent Contractor

Jul 2025 – Present

- Delivered end-to-end web and mobile solutions, managing full project lifecycle from scoping to deployment.
- Built React and React Native applications with Node.js backends, integrating REST APIs.
- Advised clients on architecture decisions, performance optimization, and tech stack selection.

Frontend Engineer, ZenQua Technologies Pvt. Ltd.

Apr 2024 – Jun 2025

- Led frontend development of cross-platform web and mobile applications using React.js and React Native.
- Implemented code splitting and lazy loading, improving load performance across web and mobile.
- Applied SEO and SMO strategies to improve organic discoverability of client products.

Software Engineer, Precious Infosystem Pvt. Ltd.

May 2023 – Apr 2024

- Built enterprise-level web platforms using React and AEM for global clients including ZEISS.
- Engineered reusable component libraries, reducing content update time for non-technical stakeholders.
- Translated UX wireframes into pixel-accurate, accessible front-end implementations.

Frontend Engineer, Yugam Technologies Pvt. Ltd.

Jan 2022 – Mar 2023

- Developed cross-platform mobile and web applications using React Native and the MERN stack; managed application state with Redux and integrated RESTful APIs.

Earlier Experience: Frontend Developer Intern, Shethink Pvt. Ltd. (2021) · React Native Intern, Orions IT Solutions (2021) · Frontend Intern, Enonity Labs (2020) — React.js UI development and REST API integration across client projects.

SELECTED PROJECTS

ZEISS Microscopy – Scientific Light Microscope Platform — React, AEM (Adobe Experience Manager)

- Built the product display platform with dynamic rendering for multiple microscope product lines; integrated AEM content APIs enabling real-time updates without code deployments.

Signal – AI Lead Radar — Next.js, FastAPI, Claude API, Supabase

- Built an AI-powered B2B lead generation platform with a custom scoring model (0–100) and Claude-generated personalized outreach across a scrape → analyze → outreach pipeline.

IoTIndustry — React, Node.js, Express.js, MongoDB

- Built a factory dashboard in React with reusable chart/table components, streaming real-time sensor data from a Node.js/Express.js backend.
