Projects

ZEISS Microscopy– Scientific LightMicroscope Product Platform

Link:- <https://www.zeiss.com/microscopy/us/products/light-microscopes.html>

- Translated UX and business requirements into elegant code solutions.
- Developed an enterprise-level platform using **React and AEM** for seamless content management and dynamic product displays.
- Built reusable AEM components to streamline updates for microscopy product categories (upright, inverted, digital).

AppWalker – Recipe Sharing & Culinary Community Platform

Link:- <https://www.appwalker-technology.com/>

An AEM-based platform for food enthusiasts to create, share, and explore unique recipes. Features include recipe posting with step-by-step instructions, ingredient management, user contributions, and a vibrant community for culinary collaboration.

- Collaborated on a **React/AEM hybrid** platform for recipe management, enabling admins to curate content via AEM.
- Developed scalable and maintainable code, ensuring long-term stability of the software.

XPAND

An Android and iOS application built using React Native for an ed-tech service.

- Developed the UI for cross-platform compatibility, ensuring a seamless user experience on both Android and iOS devices.
- Integrated APIs to fetch and display educational content.
- Managed the Redux store for efficient data/state management throughout the application.

IOTIndustry

Link: <https://iوتي.io/>

An IOT based React built online portal for managing machine data in factories, providing valuable insights for factory managers.

- Developed the frontend using the MERN stack, ensuring responsive and user-friendly interfaces.
- Integrated with backend APIs to display real-time machine data.
- Implemented data visualization tools to present insights in a clear and concise manner.

LA-PTE

[Android](#) | [IOS](#)

The all-in-one PTE Academic & PTE Core preparation app trusted by over 500,000 learners worldwide 

Whether you're aiming for university admission, immigration to Australia, or professional certification, this app provides everything you need to succeed in the Pearson Test of English.

- Designed and developed a web application using React.js, doubling user engagement with interactive lessons and quizzes.
- Enhanced search engine visibility through SEO and SMO strategies, resulting in a 30% increase in traffic.
- Reached 100,000+ downloads, establishing the platform as a leader in PTE preparation.

Sonee Sports

[Android](#) | [IOS](#)

The Sonee Sports app provides an all-in-one solution for health, fitness, shopping, and loyalty rewards. With a variety of features, the app makes it easy to manage your Sonee Sports experience.

- Built an e-commerce platform for sports goods using React Native CLI, improving monthly sales by 15%.
- Optimized *app performance and usability based on analytics and user feedback, earning high user reviews*
